*Intimate Care  
targets*

Cupidon des Pahouins is a natural product emerging from scientific research. This product is used for women's intimate care and does not only help guard against infections, vaginitis, and cystitis, but is also used for post-partum care and feminine aesthetic (intimate comfort with tightening the vaginal mucosa). This product emanates from the traditional pharmacopoeia of the Pahouin people of Central Africa and the ancestral recipe was used for queens and noble women to keep an eternal girlhood.
