HYPOTENSINE®
Regulation of blood pressure and cholesterolemia

Hypotensine® is a natural antihypertensive emanating from Polyphytotherapy Alternative and Combination that protects the cardiovascular system by reducing the formation of LDL-cholesterol, triglycerides and promoting the production of HDL-cholesterol thereby improving the HDL / HDL and triglyceride-HDL ratio observed in people who use it. Pre-clinical studies have shown that Hypotensine® is an inhibitor of the angiotensin-converting enzyme (ACE).

Angiotensin-converting enzyme (ACE) inhibitor

Human clinical benefit

1. Reduction of systolic and diastolic blood pressure
2. Regulation of lipidemia
